

New Jersey's law should NOT be weakened when it comes to the Telephone Consumer Protection Act. I have been relieved of many marketing calls and if I should begin getting them again I will go back to shutting my phone off. That's how frustrating marketing calls can get. NO TIME is a good time to call. Most of my lifetime is spent AT WORK dealing with businesses, as most Americans, and being home should be a haven to get away from it all.

Thanks!
